

JOB DESCRIPTION

| JOB DETAILS | |
|------------------------|--|
| Job Title | Therapy Support Worker- Higher in patient and outpatient settings. |
| Reports to | Catherine Sandbach |
| Band | Band 3 |
| Department/Directorate | Therapy Department/ Clinical Specialist Services |

JOB PURPOSE

- The post holder will work as part of the Allied health professional team providing therapeutic and clinical interventions to patients in the inpatient or outpatient hospital care setting.
- Work under the direction of the Allied Health Professionals, to deliver safe, effective care to the local population.
- Contributes to assessment of care needs and follows treatment plans. Provides advice and information to patients, relatives and carers within the hospital environment.
- Records and documents interventions and changes to the patient's clinical condition.
- To practice in accordance of Trust standards and policies and to work within the boundaries of their role and individual competence
- Undertake rotational work within the department as/if required.

KEY RESULT AREAS/PRINCIPAL DUTIES AND RESPONSIBILITIES

- To support the registered practitioner in patient care delivery by undertaking a range of delegated clinical care duties
- To work independently or as part of a team to plan your own workload, prioritising the clinical needs of the patients in your care
- To have a flexible approach to working as patient care demands to include working within different environments e.g. out-patient areas, clinics, wards and out-reach following patient safety guidelines/risk assessments.
- To be responsible for their own decision making and actions.
- To establish and maintain good interpersonal skills. To provide and receive factual and accurate information and to overcome communication barriers using other methods, such as visual prompts, reassurance, empathy, informed decision making/risk taking.
- To undertake training in order to perform clinical interventions effectively and remain competent to practice these interventions, all following assessment and completion of clinical competency. See attached clinical specific tasks associated with role.

- Assess a person's clinical condition, within the individual's scope of competence using tools specific to role such as, NEWS2 parameters, pain assessment tool, non-verbal signs of deterioration and know how to urgently escalate concerns appropriately.
- To undertake a range of clinical interventions and to demonstrate accurate physical skills with the use of relevant equipment, obtained through training and practice.
- To be able to assist a patient at risk of harm, such as pressure damage, and risk of falls by following the risk assessment and individualised care plan. You will also be expected to report any changes in condition that may impact the patient, via the Trust incident reporting system.
- To adhere to trust policies and standard operating procedures in relation to all aspects of practice. To know how to access the most up to date policies and adhere to them in line with Trust requirements.
- Promoting independence with mobility and to maintain current function.
- Act on own initiative delivering patient care and demonstrate Trust values in all areas of work and to conduct yourself in a professional and appropriate manner.
- Contributes to assessment of care needs and follows plans of care.
- To work within your own capabilities and demonstrate a personal duty of care, using any resources, valuables, ordering clinical supplies, when using any equipment such as hoists, examination trollies and wheelchairs.
- To provide support and supervision to new or less experienced staff by demonstrating and teaching safe practice and explaining supplementary tasks which need completing in the clinical areas, such as daily cleaning of environment and equipment, quality control checks on equipment, audits or other works to maintain standards, stocking of equipment, organising the clinical environment.
- Accurately record information, and understand the importance of accurate and complete documentation. To record clearly and accurately all aspects of care given to the individual in relevant documents, such as risk assessments, and care plans.
- To act as the patient's advocate in safeguarding patients from harm using the patient's information, such as falls prevention and pressure damage prevention.
- To act accordingly if concerned or made aware of any incidents/concerns or harm such as safeguarding concerns, reporting incidents using the incident reporting system.
- Frequent exposure to hazards, such as physical, challenging or aggressive behaviours and unpleasant conditions such as working with body odours and bodily fluids, soiled linen and specimen collection

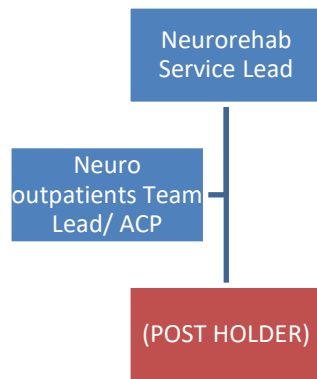

KEY WORKING RELATIONSHIPS

The post holder is required to deal effectively with staff of all levels throughout the Trust as and when they encounter on a day to day basis. COMMUNICATION/RELATIONSHIP SKILLS

The post holder will communicate effectively across a wide range of channels and with a wide range of individuals, the public and health social and care professionals. They will use both verbal and non-verbal methods of communication, dependent on the needs of the patient and address communication barriers.

They should demonstrate the interpersonal skills that demonstrate empathy, compassion, courtesy, respect and trust.

Effectively communicates information relating to patient's health and treatment. Utilises interpersonal skills, with support from the registered practitioner to support patients, relatives and carers in the decision-making process regarding their care.

Awareness of different communication needs of patients, carers and relatives.

Act as a positive role model to portray a consistent professional image of the service.

Ensure clear, concise, accurate and legible records and all communication is maintained in relation to care delivered, adhering to local and national guidance.

Ensure all patient related information is treated sensitively and adhere to the principals of confidentiality at all times.

The postholder should be able to challenge constructively within the multidisciplinary team, in an appropriate and professional manner, whilst acting as the patients advocate.

Understand the implications of the mental capacity act and act to assess capacity as appropriate

ANALYTICAL/JUDGEMENTAL SKILLS

The postholder will exercise personal responsibility and work independently within defined parameters of practice and their scope of competence, taking the initiative in a variety of situations and performing a range of clinical interventions, consistent with their role, responsibilities and professional values.

Recognise the need for further advice, guidance and support as appropriate.

Assess patient's ability to perform the required examinations and record. Refer to guidelines or registered professional if the test is beyond the patient's abilities.

Report any untoward incident/complaints and near misses to self, patient's or carers to the appropriate professional within the stated time scales and record these on Datix.

Feedback any outcome/concerns with regard to the achievement of the set goals.

Undertake delegated risk assessments providing accurate feedback to the team as necessary e.g. in relation to lone working.

PLANNING/ORGANISATIONAL SKILLS

The postholder will be responsible for working in an effective and organised manner, prioritising the clinical needs of their patients, demonstrating excellent time management and organisational skills to effectively deliver person centred care.

The postholder will deliver care based on the risk assessments completed by the registered AHP and following the individual patient's care plan.

The postholder will monitor stock levels within department

Manage a delegated caseload.

Organise own day-to-day activity in liaison with registered staff.

PATIENT/CLIENT CARE

The postholder will be in direct contact with patients, performing clinical interventions and supporting the health and wellbeing of the patient. The frequency and level of contact will be determined for each patient based upon their individual needs, as set out in the patients care/treatment plan.

The post holder will;

- Implement clinical treatment packages related to their clinical skills. Work within defined scope of practice
- Demonstrate own clinical competence developed through continual professional development, reflective practice and maintenance of clinical competencies.
- The workload is unpredictable and subject to change and interruption i.e. calls being re-prioritised, interactions with work colleagues, family/patients/carers needs.
- Contributes to holistic assessments of patients.
- Develop skills to recognise risk factors to staff, patients and carers within the healthcare setting.
- Report any untoward incidents, complaints and clinical emergencies to the appropriate professional within an appropriate time frame.

POLICY/SERVICE DEVELOPMENT

The postholder will:

- Adhere to legislation, policies, procedures and guidelines, both locally and nationally.
- Promote health and safety at all times.
- Share ideas with colleagues to improve care and suggest ideas for innovation.
- Participate in audit activity undertaken in area of practice.

FINANCIAL/PHYSICAL RESOURCES

Ensure the efficient use of resources.

Exercise personal duty of care in the safe use and storage of equipment. Be environmentally aware and prudent in the use of resources and energy.

Ensure safe keeping of patient property, in line with Trust policy.

Ensure that adequate stock levels are maintained through standard ordering procedure, non-stock requisition and sourcing individualised resources through procurement.

Assessing and ordering equipment needs to support patients within a hospital and home setting.

HUMAN RESOURCES

The post holder will:

- Act responsibly in respect of colleague's health, safety and welfare following safety at work practices, whilst working in compliance with local health and safety policy and guidance.
- Recognise and respect equality and diversity, demonstrating an inclusive approach in all environments.
- Understand the importance of role modelling and participates in the training and their own supervision of staff as appropriate to the postholders' competency.
- Ensure adherence to safe lone working practices and use of staff tracking systems.
- Participate in supervision and annual appraisal with a registered professional to support professional development.
- Individually responsibility to complete mandatory training in line with electronic staff record.
- Support the registered professionals with Health and Wellbeing activities in the team e.g. act as a Health and wellbeing champion for the team.
- Support other teams/areas where clinical risk has been identified
