ORGANISATIONAL CHART

Community Rehabilitation (Intermediate & Proactive Care)

Royal Devon University Healthcare NHS Foundation Trust

FREEDOM TO ACT

- Work autonomously without direct supervision, accountable for own professional actions, making decisions alone, and will be a specialist for a defined caseload.
- Work will be prioritised work according to time scales required considering any clinical risks.
- Work within codes of practice/conduct and professional guidelines, working within broad occupational policies and regulations.
Acts as a senior responsible clinician escalating any risk as required.
- Decide when appropriate to refer to Specialist Services, other Community Services and/or external organisations (including but not limited to SWAST, DCC, DPT, VCSE).

COMMUNICATION/RELATIONSHIP SKILLS

- Able to effectively communicate at all levels in the organisation, to a variety of Health and Social Care professionals, patients, relatives and carers, to ensure patient care is holistic and managed effectively.
- Effectively communicates complex and sensitive information relating to patient's health and clinical care which requires empathy, persuasion and reassurance. Utilises higher levels of interpersonal skills to resolve conflict during potentially hostile and antagonistic circumstances, and support patients, relatives and carers in the decision-making process regarding their care. This includes early resolution of concerns and compliance.
- Acts at all times in a manner which illustrates care, compassion, courage, competence, communication and commitment.
- To promote effective partnerships with a wide range of individuals and organisations in the statutory, voluntary and private sectors, in relation to the delivery of health and social care within the cluster.
- Clinical Leadership and management of Community Rehabilitation teams including demonstrating innovation and change management skills to meet national and local objectives for service delivery.
- Understand the implications of the Mental Capacity Act and acts to assess capacity as appropriate in relation to communication.
- The post holder will be required regularly to deal with conflicting viewpoints or information which may be complex or of sensitive nature where negotiation skills will be required.

ANALYTICAL/JUDGEMENTAL SKILLS

The Clinical Lead is expected to;

- Demonstrate a holistic approach to the interpretation of complex data to enable effective decision making.
- Act on their skills to assess, analyse and act appropriately in complex situations, interpreting complex needs of patients or client conditions and act on the appropriate course of action. This will include assessing patient conditions directly, or supporting clinicians within service, where there is a range of options to consider in providing care to patients.
- Engage in clinical audit, including monitoring of compliance against national and professional standards.
- Use their advance clinical assessment skills to aid clinical diagnosis, to ensure appropriate plan of care.
- Manages incidents and complaints, assessing risk and undertaking investigation/escalation where indicated.
- Recognise ethical dilemmas relating to care and act as the patient advocate when required
- Analyse audit reports and organisational performance data to evidence quality care and ensure appropriate cascade to teams. This will contribute to service improvement plans

PLANNING/ORGANISATIONAL SKILLS

- To prioritise workload to manage unpredictable and competing demands to ensure safe and effective care
- Responsible for overseeing the efficiency of the systems relating to referrals, triaging and assessing the complexity and urgency, allocating and re-allocating work based on staffing availability and skill mix.

- Clinical Leadership and management of the Community Rehabilitation teams, working with Operational colleagues to ensure that the service delivered within allocated resources.
- Ensure safe staffing levels in line with organisational and escalation guidance

PATIENT/CLIENT CARE

The Clinical Lead will;

- Have responsibility for the Community Rehabilitation clinical caseload ensuring that the clinical service delivers high quality, safe and effective patient care.
- As Clinical Lead, cases will be escalated for specialist advice, development of specialist plans, support and oversight of the management and delivery of care. Ensure that self and team members are aware of and work within their professional standards
- Demonstrate own clinical competence developed through continual professional development, reflective practice and maintenance of a skills portfolio.
- Undertake holistic assessments of patients, including those with complex health needs, make a clinical diagnosis, within scope of practice, and develop highly specialised plans of care with clear timelines for evaluation.
- Recognise and appropriately addresses risk factors to staff, patients and carers within the community healthcare setting; undertake risk assessments and escalate as appropriate.
- Report and manage any incidents, complaints and clinical emergencies to the appropriate professional within the appropriate times.
- Ensure there is a robust process for quality control/competency/maintenance of any medical devices used to deliver therapy/interventions.

POLICY/SERVICE DEVELOPMENT

- To work within the Trust's Policies, Procedures and Standard Operating Procedures (SOP).
- Participate in setting standards and taking part in audits or quality improvement initiatives.
- To maintain the Trust's Standards of Clinical Governance
- To implement and audit policies, protocols and pathways, facilitating change in practice which will improve clinical outcomes and meet the needs of patients, relatives and carers within their service area.
- Support and take an active lead in service development within the community rehabilitation service.
- To contribute to implementation of national rehabilitation initiatives throughout the Care Group

FINANCIAL/PHYSICAL RESOURCES

- Work with Operational managers, Community Services Manager and the professional leads to monitor and review staff resources ensuring appropriate skill mix to meet service delivery.
- Contribute to service planning using clinical expertise and innovation to ensure the efficient use of resources and maintain financial balance within the remit of the service budget.
- Authorised signatory for expense claims and supplies (<£1000); oversees the maintaining of stocks and supplies.
- As an expert practitioner, the post holder will have a high level of skill in assessing patient needs, identifying the most appropriate equipment for the patient, taking into consideration patient need and cost, and will authorise the payment of equipment to support patients within the home setting.

HUMAN RESOURCES

- Supports with recruitment, induction, training and clinical supervision of all staff, including multi professional pre and post registration students, work experience students, and support workers.
- Undertakes appraisals and clinical supervision for the community staff within teams responsible for ensuring that all staff have supervision and a yearly appraisal.
- Ensures own and registered members of the team comply with revalidation and ongoing registration with their professional body.
- To manage capability and initiate any appropriate initial investigation with support from the Clinical and Professional Leads and/or Senior Operations Manager.

- Acts as a Supervisor/Assessor for Apprentices.
- Participate in supervision and appraisal with Community Services Manager and Professional Lead to support professional development and ongoing service delivery.
- Individual responsibility to maintain prescribing competence and registration as per the trust policy (where applicable)
- Work with Operational colleagues to support team members with their own Health and Wellbeing.
- Support staff training and development to ensure delivery of high-quality evidence-based care and clinical competence. Escalating where gaps in knowledge is evident through unintended consequences of an innovation/change in practice.

INFORMATION RESOURCES

- Inputting, storing and providing information in relation to patient records following GDPR guidance.
- Accurately completing and maintaining effective patient's records.
- Maximise the full use of the electronic patient record.
- Demonstrate the quality of service delivery through organisational data.

RESEARCH AND DEVELOPMENT

- Promote innovative practice and ensure relevant research findings are incorporated into practice.
- To regularly review the community service/team's performance by the completion of monthly audits, ensuring that outcomes are acted upon.
- Support workforce development in line with organisational requirements.
- To promote patients, relatives and carer feedback of the community services, to help facilitate learning and improvement.
- Monitor standards of care through supervised practice and clinical audit

PHYSICAL SKILLS

- Complete a range of developed physical clinical skills that include clinical assessment, and delivery of clinical interventions within scope of professional practice and competence. For example, advanced therapeutic handling to facilitate movement, function and independence while ensuring safe practice.

PHYSICAL EFFORT

- The physical effort of the role will be a combination of sitting, standing, walking and will depend on patient condition, and environment. There will be a requirement to frequently exert light physical effort such as bending, kneeling or manoeuvring patients. The teams covered are across the locality so will involve driving between teams and also to patients during clinical time.
- At times the individual will need to be physically active, for example in the provision of direct patient care.
- Frequent manual handling and treatment of patients in restricted positions.

MENTAL EFFORT

- The role has unpredictable work for example, the patient condition may be unknown and there is a need to assess and diagnose patient care needs, and the post holder will be required to frequently concentrate, and will likely experience interruptions (for example, regular referrals are received throughout the day and the Clinical Lead will need to triage and prioritise the caseload accordingly). This may include challenging situations.

EMOTIONAL EFFORT

- Provide emotional, psychological and practical support to patients, families, carers and other professionals.
- The nature of the role the post holder will have direct and indirect exposure to distressing and emotional circumstances. This can include bereavement or mental health challenges for staff and patients or distressing safeguarding issues.

WORKING CONDITIONS

- The role involves providing care to patients within their home. There is a frequent exposure to unpleasant working conditions including bodily fluids and verbal aggression.
- Frequent use of display screen equipment (DSE) including mobile IT equipment.

OTHER RESPONSIBILITIES

Take part in regular performance appraisal.

Undertake any training required in order to maintain competency including mandatory training, e.g. Manual Handling

Contribute to and work within a safe working environment

You are expected to comply with Trust Infection Control Policies and conduct him/herself at all times in such a manner as to minimise the risk of healthcare associated infection

As an employee of the Trust, it is a contractual duty that you abide by any relevant code of professional conduct and/or practice applicable to you. A breach of this requirement may result in action being taken against you (in accordance with the Trust's disciplinary policy) up to and including dismissal.

You must also take responsibility for your workplace health and wellbeing:

- When required, gain support from Occupational Health, Human Resources or other sources.
- Familiarise yourself with the health and wellbeing support available from policies and/or Occupational Health.
- Follow the Trust's health and wellbeing vision of healthy body, healthy mind, healthy you.
- Undertake a Display Screen Equipment assessment (DSE) if appropriate to role.

APPLICABLE TO MANAGERS ONLY

Leading the team effectively and supporting their wellbeing by:

- Championing health and wellbeing.
- Encouraging and support staff engagement in delivery of the service.
- Encouraging staff to comment on development and delivery of the service.
- Ensuring during 1:1's / supervision with employees you always check how they are.

DISCLOSURE AND BARRING SERVICE CHECKS

This post has been identified as involving access to vulnerable adults and/or children and in line with Trust policy successful applicants will be required to undertake a Disclosure & Barring Service Disclosure Check.

GENERAL

This is a description of the job as it is now. We periodically examine employees' job descriptions and update them to ensure that they reflect the job as it is then being performed, or to incorporate any changes being proposed. This procedure is conducted by the manager in consultation with the jobholder. You will, therefore, be expected to participate fully in such discussions. We aim to reach agreement on reasonable changes, but if agreement is not possible, we reserve the right to insist on changes to your job description after consultation with you.

Everyone within the Trust has a responsibility for, and is committed to, safeguarding and promoting the welfare of vulnerable adults, children and young people and for ensuring that they are protected from harm, ensuring that the Trusts Child Protection and Safeguarding Adult policies and procedures are promoted and adhered to by all members of staff.

At the Royal Devon, we are committed to reducing our carbon emissions and minimising the impact of healthcare on the environment, as outlined in our Green Plan available on our website. We actively

promote sustainable practices and encourage colleagues to explore and implement greener ways of working within their roles.
