

JOB DESCRIPTION

JOB DETAILS	
Job Title	Senior Technical Support Analyst
Reports to	Technical Services Manager
Band	Band 6
Department/Directorate	Digital Services Division

JOB PURPOSE

The Digital Services Division aims to develop a culture of continual service improvement. The post holder will support managers to develop this culture. The purpose of the Senior Technical Support Analyst role is to provide support and project services within the Applications, Platforms and Infrastructure team to the Trust and other client organisations in terms of the clinical and business systems and supporting infrastructure systems. The post-holder is expected to suggest improvements to the service and infrastructure systems, to monitor and maintain those systems, and to provide leadership to junior members of the team. The post-holder will make a significant contribution to service development and modernisation programme of the NHS through the successful delivery of Digital Services Division's programmes, projects, support and the re-engineering of business processes in conjunction with the service.

- KEY RESULT AREAS/PRINCIPAL DUTIES AND RESPONSIBILITIES**
- Installation and management of the various infrastructure and platform elements which provide the foundations of the Trust solutions. Including, but not limited to, application deployment platforms, web servers, database servers, data warehouse environment, backup system, storage, virtualisation platform, print server management and end user computing;
 - Proactive monitoring and management of the warranted environment in order to ensure high availability to the required standard (99.99%);
 - Delivery of suitable reporting mechanisms, such that the organisation can be assured of the system meeting the agreed high availability and performance requirements;
 - Manage that reporting and monitoring actively in order to analyse root causes for problems and to implement plans to remediate them;
 - Implementation of warranted environment upgrades to an agreed standard;
 - Managing the migration and troubleshooting of application builds across Trust environments;
 - Implementation of software/hardware upgrades and updates to production and non-production environments using prescribed tools (Data Courier) and Standard Operating Procedures (SOPs) as required;
 - Analyse where tasks can be automated or scripted in order to ensure consistency and efficiency, and to implement that automation;
 - Provision of ongoing BAU support for the system both in-hours and out-of-hours as part of the on-call team;
 - Document and maintain processes, procedures, and architectural documentation related to the solution actively;
 - Work with the infrastructure teams in order to promote understanding of the core systems and supporting infrastructure, and to ensure that the BAU teams are able to take on a supporting role in the ongoing management of the solution;
 - Maintain and test processes related to disaster recovery and business continuity;
 - Attend best practice seminars, user groups and meetings on relevant topics;
 - Be a subject matter expert on assigned technologies;
 - Ensure compliance with the Trust Governance Procedures, Policies and Standards for data loads and interfaces;
 - Act as an ambassador for the Trust's Digital Services Division at all times;

- Undertake additional, specific project work in support of the Digital Services Division under the direction of the CIO/Deputy CIO, Technical Services Manager, and/or Technical Design Lead.

KEY WORKING RELATIONSHIPS

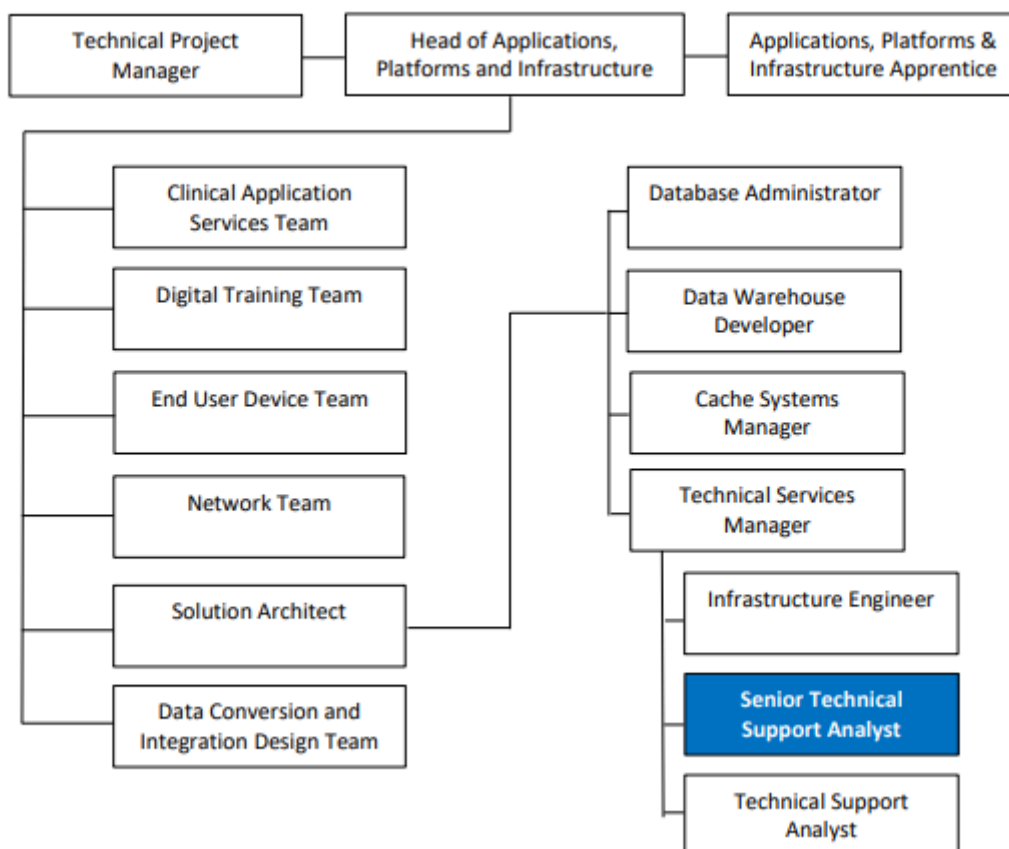

Areas of Responsibility:

The post holder is required to deal effectively with staff of all levels throughout the Trust as and when they encounter on a day-to-day basis. In addition, the post holder will deal with the wider healthcare community, external organisations and the public. This will include verbal, written and electronic media.

Of particular importance are working relationships with:

Internal to the Trust	External to the Trust
<ul style="list-style-type: none"> • Divisional Directors • Trust Service Managers • Information Asset Owners • Digital Services Division • Finance Department • Procurement Department • Internal Committees and Governance • Trust User Base 	<ul style="list-style-type: none"> • External Clients and Partners • 3rd Party Service and Solution Providers • NHS Digital • Colleagues in other NHS and Social Care organisations
