

# ROYAL DEVON UNIVERSITY HEALTHCARE NHS FOUNDATION TRUST

## JOB DESCRIPTION

### Clinical Fellow in Oculoplastics

WEST OF ENGLAND EYE UNIT, ROYAL DEVON & EXETER HOSPITAL

#### THE POST

Title Ophthalmology Clinical Fellow in oculoplastic surgery  
Supervising Consultants Miss Fiona Irvine and Miss Ioana Pereni

#### Training Objectives:

The aim of this fellowship is to prepare the Fellow for Consultant practice as a general Ophthalmologist with a special interest in oculoplastic surgery. We would aim to train the Fellow to be proficient in all oculoplastic procedures that are commonly performed by a sub-specialist (eyelid tumour management and reconstruction, eyelid malposition procedures, ptosis, lacrimal drainage surgery, blepharoplasty).

#### Timetable

	AM	PM
Monday	Theatres <a href="#">alt wks</a> Laser Clinic <a href="#">alt wks</a>	Theatres <a href="#">alt wks</a> Laser Clinic <a href="#">alt wks</a>
Tuesday	ED / A&E Clinic	Oculoplastic clinic
Wednesday	Cataract Clinic	Theatres
Thursday	Theatres	Study/Research
Friday	Oculoplastic Clinic	Teaching/Study/Research

#### PLEASE NOTE

Timetable above is intended to give an indication of likely mix of sessions in this post but is subject to change depending on needs of service and theatre availability.

#### FACILITIES

##### Theatre Facilities

*Oculoplastic Fellow Job Description 29/01/21  
Michael Smith*

The 2 main ophthalmology operating theatres in the eye unit are located within the Eye Unit and both have ceiling mounted Leica operating microscopes. Each theatre has facilities for phaco-emulsification, vitreoretinal surgery and oculoplastic surgery.

Oculoplastic surgery also takes place in the theatre suite on the nearby Heavitree site, and more minor oculoplastic procedures in the theatre at Sidmouth Hospital.

Axminster Hospital has a fully equipped eye theatre for cataract and oculoplastic procedures.

### Out-Patients

The main Out-patient Eye Department has approximately 15 examination rooms plus separate areas for orthoptics, optometry and ocular photography. The department is well equipped with OCT, Humphrey Visual field Machine, Optos retinal photography and Pentacam. There is a B-Scan and UBM ultrasound. There are separate rooms for Retinal laser and SLT/YAG laser. The Department has excellent electrodiagnostic studies instruments and this service is run in conjunction with the Department of Neurophysiology. The Glaucoma Unit is on the hospital's Heavitree Site with an additional 5 examination rooms plus a Trio laser.

Community outpatient clinics are held at Axminster, Sidmouth and Tiverton hospitals.

### Teaching/Research

Every Friday afternoon during term time is devoted to teaching. This involves teaching sessions within the Unit and with adjacent units on a combined basis approximately once a month. In addition there are sub-regional and regional meetings within the South West. The teaching programme involves invited speakers, Consultant Ophthalmologists and trainees along with regular audit meetings.

The Medical Library is housed within the Medical School building, but the West of England Eye Unit has its own library which has on line access to all the major ophthalmic journals. The Research and Development Support Unit provides statistical and study help. Research, audit and quality improvement projects by the Fellows is encouraged at all stages. The West of England Eye Unit has a strong record of published research.

### University of Exeter Medical School

The Royal Devon and Exeter Hospital is the main teaching site for the University of Exeter Medical School. Undergraduate facilities are on site, as well as on the St Luke's campus near by. The RILD (Research, innovation, learning and development) building opened in 2014, and connects to the medical School building. The unit has 4<sup>th</sup> and 5<sup>th</sup> year students most weeks, and the Fellow is encouraged to be involved in their teaching.

The unit also has Optometry Students from the University of Plymouth and Orthoptics Students.

### ON CALL COMMITMENT

The Ophthalmic Fellows take part in the first on call ophthalmology rota. This is typically on a 1 in 8 basis, although this may vary depending on staffing numbers.

### MAIN TERMS AND CONDITIONS OF SERVICE

The post is for an initial period of 6 months but can be extended by mutual agreement.

All appointments are subject to full registration with the General Medical Council Appointment is also subject to a satisfactory health check and co-operation with the Occupational Health Departments is requested.

The applicant is entitled to a total of 27 days Annual leave and up to 10 days paid Study leave.

### EXETER AND SURROUNDING AREA

Exeter is a city of 130,000 people located on Exe river and near to the sea (Exmouth is 8km away). The Exeter and local 'Heart of Devon' area has a population of 500,000. The beautiful Exe estuary starts in the Exeter suburb of Topsham, which like Exeter is an ancient port. Exeter is a very pleasant place to live, with one of the finest cathedrals in England, excellent shopping facilities, good rail and bus services, excellent road links and an expanding airport. There are daily flights all over the UK and Ireland, with many wider European services including daily flights to London, Paris and Amsterdam. Dartmoor and Exmoor national parks are very close, as are the beaches of Devon and Cornwall. There are many cycling paths within and around the city, including the Topsham to Exmouth cycleway, along the Exe estuary.
