

# Recruitment day

We offer you a warm welcome and thank you for attending today

Below is some additional information which might be useful to read before your interview.

It is important that you are clear about what you can commit to at the time of your interview as this assists us with placing you in the best place if you are successful.

Hours available 15 – 37.5 per week, these are usually averaged across a rota so may vary slightly each week.

You will be provided with appropriate Personal Protective Equipment (PPE) to safely care for our patients. You will come into contact with patients with transmittable diseases such as COVID, C difficile, Norovirus and Flu amongst others. If you have any concerns please discuss with the interview panel at the time of your interview.

We offer a wide variety of shift times examples of which are below.
