

JOB DESCRIPTION

JOB DETAILS	
Job Title	Military Forensic Nurse Advisor
Reports to	Clinical Matron
Band	Band 7
Department/Directorate	SARC, Specialist Services

JOB PURPOSE

- The post holder will work as part of the SARC team providing a high standard of individualised care and advice to patients who have experienced a form of sexual assault and are in the military are their next of kin or are a veteran.
- The post holder will be professionally accountable for the forensic examinations they undertake for clients 16 years and above, ensuring adequate support and guidance are given and arrange appropriate follow up care. Forensic examinations will be carried out autonomously, including dealing with written referrals and clinical telephone referrals, with advice and guidance from a forensic doctor or clinical lead as necessary.
- The post holder will be responsible for performing a clinical assessment and physical examination to ascertain if the client has any acute needs, such as review of physical injury, prevention of pregnancy, prophylaxis for sexually transmitted infections (STI) and HIV, and may directly refer to other clinical services and agencies as required.
- The post holder will be required to attend and participate in strategy meetings with the police and adult social care, providing specialist advice and guidance to those professionals regarding the health needs of adults that have experienced sexual harm.
- The post holder will be required to participate in an out of hours rota, providing other professionals with expert advice regarding adults who have experienced sexual harm. They may be required to attend to see clients outside of core working hours
- To develop and implement pathways between SARC services and Ministry of Defence personnel and their families and Veterans.
- Increase referrals into SARC from Ministry Of Defence personnel and their families and Veterans.
- Support leaders within the Military setting to be able to support and refer personnel through the correct channels into the SARC services.
- To deliver training to military personnel including those in leadership and management roles to aid understanding around SARC services, Sexual safety and responsibility for appropriate reporting and management of Sexual assaults prior to forensic medicals
- To work closely with both Civilian and Military Police as required
- To attend both civil and criminal courts (including Court Martial) as required as a professional witness on an occasional basis. The post holder will continue to be available to attend court beyond the end of their employment with the service.
-

KEY RESULT AREAS/PRINCIPAL DUTIES AND RESPONSIBILITIES

- Liaise with the various military establishments within the Devon and Cornwall SARC area working collaboratively with the leadership and management teams of the establishments.
- Work with the Military Police, Chain of command, Personnel, Welfare services and Defence Medical services in each establishment
- Help establish pathways for support and follow up with veterans that attend the Devon and Cornwall SARC.

- Deliver training around Sexual Assault and SARC services to personnel of all ranks and responsibility within the service environment.
- Ensure appropriate follow up within the military setting is offered for all personnel that attend for a SARC medical or make an enquiry with SARC services.
- Strive to build effective working relationships with the military establishments in the Devon and Cornwall area as well as the variety of training settings.
- Work within defined occupational policies, protocols, procedures and codes of professional conduct to ensure safe and effective patient care and forensic integrity.
- To be a point of contact, alongside the Crisis Workers, for patients following a forensic medical examination, making contact post examination as necessary, to ensure client treatment plan is completed and all relevant onward referrals have been made
- Review referral forms in conjunction with the Lead Crisis Workers, ensuring appropriate actions are taken and appointments for forensic medical examinations are offered where appropriate and care needs are identified and addressed.
- Support the Lead Crisis Workers in their administrative duties, processing referrals and paperwork where capacity permits.
- Responsible for the collection of forensic samples for the purposes of criminal investigation, (this may require the use of the colposcope and/or speculum) ensuring samples are collected and stored as per specific departmental policies, maintaining forensic integrity and chain of evidence.
- Support NHS England, the Ministry of Defence and the Clinical Matron for Devon and Cornwall SARC in the implementation of service specifications and roll out of this new and unique role in national policy.
- Share the practice and learning with colleagues to ensure that in the event of leave or sickness equitable service can be delivered for military personnel.
- Partake in the clinical induction, training and development of trainee forensic examiners within the service.
- High degree of competency and dexterity to carry out required practical skills during forensic examinations ensuring it is labelled, sealed and stored appropriately to prevent DNA degradation.
- Ability to evaluate and act upon safeguarding issues, asking for advice and guidance from safeguarding leads, with all age groups of those attending service.

KEY WORKING RELATIONSHIPS

The practitioner will be based within the Plymouth Devon & Cornwall Sexual Assault Referral Centre premises. The majority of medical examinations undertaken will be at the appropriate Sexual Assault Referral Centre (SARC) requiring the ability to drive between locations across Devon and Cornwall. There is also an expectation that the advisor will be driving to military bases or welfare centres in the Devon and Cornwall area to deliver training. To that end the individual must hold a full UK driving licence and be able to access a vehicle on a daily basis to be able to get around the geographical area.

Devon and Cornwall Sexual Assault Referral Centres provide forensic examinations and support for Service users who have been sexually assaulted. There is provision for both acute and historic cases, for both adult and paediatric patients within working hours and non-working hours by way of an on-call service. There is a range of psychological support both internally and externally that can be offered to Service users. This role will focus specifically on supporting the national agenda in conjunction with NHS England and the Ministry Of Defence around Sexual assault management within the military environment (including serving personnel next of kin and also veterans).

The adult service is led by a Clinical Lead Doctor. The Nurses within the service are led by the Clinical Matron and the Nurse Manager. The post holder will be undertaking a new role to the south west military community. Therefore, some significant work will be required to get the post established. In order to ensure that clinical competence is maintained within the role as a forensic nurse examiner participation in clinical activity for Devon and Cornwall SARC will be required. The individual will be expected to fulfil

all tasks and work as part of a team. To meet the needs of the service, the post holder may be required to work in other areas as appropriate as directed by their line manager i.e. Exeter or Truro. The post holder will need to work to establish pathways for both serving personnel, their next of kin and also veterans.

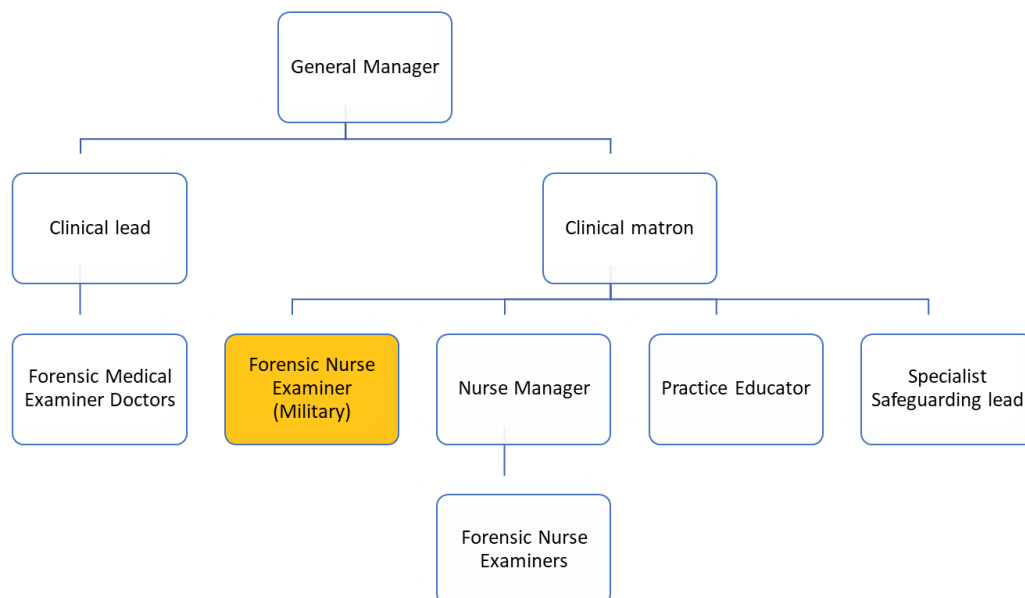

The post holder will be key to providing support for veteran's and armed forces accreditation and to ensure that we support the trust in delivery of the armed forces covenant. They will be expected to promote the education and training for their colleagues within the service.

The post holder is required to deal effectively with staff of all levels throughout the military community within the Devon and Cornwall footprint. This will include not only the Commanding officers but also military Police, serving personnel and also their next of kin as well as welfare and community services. In addition, they will deal with the wider healthcare community, external organisations and the public. This will include verbal, written and electronic media. Of particular importance are working relationships with:

ORGANISATIONAL CHART

FREEDOM TO ACT

- The Military forensic Nurse advisor will work within broad occupational policies, protocols, procedures and codes of professional conduct to ensure safe and effective patient care and forensic integrity.
- The expectation of this role is that the individual will increase not only visual presence of the SARC and services within the military establishment but also increase the referrals for medical examination. Their role will be focused on how this is achieved.
- Although working autonomously within the policies, protocols and procedures the post holder will be able gain advice and support from the Clinical Matron, Clinical lead and also the National military Forensic nurse examiner when required.
- The individual will be providing highly specialist advice to both the chain of command within military establishments and also military police and potentially defence medical service personnel as well.
- Where additional patient needs are identified (drug and alcohol dependency, learning difficulties etc) seek additional guidance and support from forensic doctor or clinical lead
- Accountable for own professional actions and practices and to utilise available opportunities to sustain and improve knowledge and professional competence

COMMUNICATION/RELATIONSHIP SKILLS

- Be the central point of contact for the military within the Devon and Cornwall area for referring Sexual assault cases to the SARC and also coordinating follow up after SARC services have been accessed.
- Provide telephone support and advice to professionals from other agencies, in the forensic care planning and options available to patients. This may involve providing and receiving complex, sensitive information
- Effectively communicate clearly and empathically, information to patients which may be complex, sensitive and distressing in nature.
- Responsible for giving accurate and appropriate written and verbal information to patients whilst taking written consent.

- Liaise with patients, police, outside agencies and other personnel, maintaining appropriate confidentiality in accordance with statutory requirements such as data protection Act and the NHS legislation.
- Effectively provide and receive complex, sensitive information during face to face assessments and clinical examinations There may be barriers to understanding requiring the utilisation of a range of verbal, non-verbal and written communication skills
- At all times work closely with other members of the clinical team, referring on to doctors or psychology services as appropriate.
- Develop and maintain links with related health and social services and liaise as appropriate with statutory and voluntary bodies.
- Establish, develop and maintain links with veterans and military charities as well as welfare services to ensure there is appropriate support for patients after their contact with SARC services
- Work effectively with colleagues to maintain a team approach within the service.
- To be a point of contact, alongside the Crisis Workers, for patients following a forensic medical examination, making contact post examination as necessary, to ensure patient's treatment plans are completed and all relevant onward referrals have been made
- To attend both civil, criminal courts and court martials as required as a professional witness on an occasional basis. The post holder will continue to be available to attend court beyond the end of their employment with the service. Work and liaise with the crisis workers and police (civilian and military) to ensure that the patient feels in control and the service is tailored to their needs enabling them to make informed choices

ANALYTICAL/JUDGEMENTAL SKILLS

- Skilled at assessing patient's situations some of which maybe complicated involving a number of situations/scenarios all of which can be complex and advising on appropriate actions and follow-up.
- Determining and then implementing the most appropriate forensic strategy to support further criminal investigations when required or facilitating potential military investigations if the initial disclosure is a self-referral.
- Undertakes forensic examination clinics and provides comprehensive advice and care, following appropriate PGD, to include the prevention of pregnancy and prophylaxis against Sexually Transmitted Infections including HIV and Hepatitis B as necessary.
- Review referral forms in conjunction with the Lead Crisis Workers, ensuring appropriate actions are taken and appointments for forensic medical examinations are offered where appropriate and care needs are identified and addressed.
- Gather and assess relevant information from partner agencies prior to, and in support of, non-recent medical assessments when required.

PLANNING/ORGANISATIONAL SKILLS

- Individual will be expected to plan and deliver training across a broad number of establishments and ranks and roles of personnel. Therefore, for they will be expected to ensure that the training is set to an appropriate standard for the personnel being taught.
- Be able to plan and facilitate the complexity of forensic examinations working around the relevant restrictions and requirements of the Ministry of Defence and the military police
- Be able to Plan and facilitate the complexity of examinations in off-site locations when required e.g. if a patient cannot attend the SARC. ensuring it has been risk assessed as clinically/ personally safe to do so
- Provide an immediate response to police referrals requiring forensic medical examinations

- Will be required to attend case management meetings as appropriate
- Assists senior staff in delegated responsibilities to ensure smooth running of the service.
- Assist in the co-ordination/organisation of forensic medical assessments following acute telephone referrals and appointments for the non-acute clinics. This may require liaising with the medical teams, referring agencies and the patient.
- Assess and prioritise own workload on a daily basis according to needs and urgency
- Support the Lead Crisis Workers in their administrative duties, processing referrals and paperwork where capacity permits.
- Ensure that the SARC service is accredited around the Armed forces covenant, being veteran aware and supporting the armed forces community.
- Participate in strategy meetings and contribute to safeguarding processes as required.

PATIENT/CLIENT CARE

- To deliver quality highly specialist care, advice and information with regard to each patient's customs, beliefs and sexuality, in a non- judgemental manner.
- Being able to provide the highly specialist advice to relevant members of the chain of command within military establishments should personnel report a sexual assault to them
- Developing specialist care pathways for members of the armed forces, their next of kin and veterans across the Devon and Cornwall SARC area.
- Manage the challenge of having to support patients and their relatives who are working within the military environment.
- Able to be empathetic in sensitive situations supporting patient / partner / family/carer, providing emotional and practical support.
- Complete clinical forensic examinations and document a detailed and comprehensive clinical/medical history for all patients attending for possible sexual assault
- Responsible for the collection of forensic samples for the purposes of criminal investigation, (this may require the use of the colposcope and/or speculum) ensuring samples are collected and stored as per specific departmental policies, maintaining forensic integrity and chain of evidence.
- Act on information that may influence the treatment plan for patients.
- Refer patients for ongoing specialist support where required e.g. ISVAs (independent sexual violence advisors), sexual health service and counselling etc.
- Act in a professional manner, remain calm and efficient at all times.
- Carries out care in accordance with the NMC code of Professional Practice; local and national; and Trust Policies and other national guidelines i.e. BASHH / FSRH/FFLM (British Association of Sexual Health and HIV, Faculty of Sexual Reproductive Health, Faculty of Forensic and Legal Medicine).
- The post holder will assess a patient's capacity and mental health needs prior to, during and post forensic medical examination and determine ability to consent to care.
- The post holder will explore and assess a patient's safety and safeguarding needs prior to, during and after SARC contact, flagging concerns with colleagues and refer on as required.
- Promote safer sex and risk reduction for patients attending the service, and in the community.
- Provide an immediate response to those requiring PEP (post exposure prophylaxis) for sexual exposure.
- Ensures patient's needs for privacy and dignity are addressed at all times with consideration to the cultural, religious or social beliefs of each individual.
- Prescribe and supply relevant medication either as non-medical prescriber or in accordance with appropriate PGDs
- Remain up to date and work in accordance with the current standards and guidelines from the Nursing and Midwifery Council (NMC) and the Faculty of Forensic and Legal Medicine (FFLM), and any other relevant organisations.
- The post holder will maintain specialist competency in forensic examinations and follow up care required.

- Ensures clinic areas are forensically clean and fit for purpose each shift and report any issues to senior staff.
- Where consent to examine is not obtained discuss with forensic doctor or clinical lead to ascertain how to proceed

POLICY/SERVICE DEVELOPMENT

- Developing pathways and processes to support increased access to SARC services from Ministry of Defence personnel and their families and veterans.
- Writing and implementation of policies between Ministry of Defence and RDUH SARC services in conjunction with the Clinical Matron and NHS England Regional Leads for military forensic nurse advisor. These Policies will help influence the national agenda around Sexual assault within the military environment
- The individual will be collecting statistical data on service utilisation and delivery and ensuring that the Clinical matron, NHS England regional commissioner and Ministry of Defence have oversight and can see developments. This data will also be fed into the national development of this role.
- To ensure that Ministry of Defence chain of command are following Ministry of Defence policy and protocol for management of sexual assault for service personnel.
- Identifying areas of service development as the role evolves, and discussing these with Clinical Matron.
- To be aware of Health and Safety and security procedures at work and to report all incidents/accidents to a senior member of staff.
- Assist the senior nursing team in gaining feedback from service users and their families
- Ability to respond flexibly to changes/developments in service needs, both within the short- and long-term visions
- Ensure implementation of service specifications and with local and national policy initiatives
- Support the national delivery of Sexual safety within the military setting
- Liaise with the National Lead military FNE based and NHS England commissioners as required.
- In conjunction with the Clinical matron and nurse manager partake in the monitoring of standards, ensuring they are in line with national and local requirements and are meeting the requirements set out by NHS England and the MOD for this new role
- To be actively involved in the implementation and delivery of health promotion work within the service.

FINANCIAL/PHYSICAL RESOURCES

- Show an appreciation of effective resource management by the efficient use of resources, ordering stock and replenishing/maintaining stock levels adequately.
- Help department continue to manage the budget and ensure that the service continues to manage the service and deliver within the budget window.
- Appropriately use medical equipment i.e. colposcope

HUMAN RESOURCES

- A significant and ongoing part of this role will be to deliver appropriate training to the various military units and their personnel around Sexual Assault, Sexual Safety and SARC services, working with the Practice Nurse Educator to ensure consistency of communications and messaging.
- This specialist training will be delivered at levels appropriate for the wide variety of audiences that will be addressed across the military geographical footprint of the south west.
- Maintains own professional portfolio and keep up to date with clinical and nursing and midwifery developments as required to meet the revalidation standards of the NMC
- Partake in regular appraisals with line manager and participate in departmental supervision.

- Demonstrates a high commitment to professional and personal development to ensure that professional competencies are maintained and developed to continue to meet the needs of the service. This will include attending specialist monthly educational/peer review meetings (minimum four per year)
- Support the SARC team in promoting a learning environment through identifying opportunities and seeking resources required for own and others learning.
- Partake in teaching and mentoring within the department and presentations to outside groups.
- Keeps abreast of developments within the speciality and within Nursing/Midwifery/Healthcare/Forensic Medicine
- Partake in the clinical induction, training and development of trainee's within the service.
- Represent the department at meetings and on working groups etc., both within and outside the trust including at NHS England, MOD and local military establishments.
- Partake in regular clinical and safeguarding supervision.
- To complete all mandatory and statutory training as required for the post.
- The post-holder will attend an FFLM approved one-day "SARC Best Practice Day" course at least every 3 years.
- The post holder will be required to complete additional training within the field of forensic medicine as appropriate.
- To work as part of the team, and will be flexible with the rota, being considerate to others and supporting colleagues.

INFORMATION RESOURCES

- Ensures and maintains clear accurate record keeping.
- Effectively use patient EPR to log examinations and patient data.

RESEARCH AND DEVELOPMENT

- Undertake audits and surveys when required to improve patient care.
- Ensure accurate data collection of service delivery as required to evidence impact and activity of the role and be prepared to present to relevant parties.
- Participate as part of the multi-disciplinary team to review systems to improve the efficiency of the department.

PHYSICAL SKILLS

- Proficient in the use of the colposcope and ensuring that images are copied, stored and released in line with the trust and Faculty of Forensic and Legal Medicine (FFLM) guidance.
- To be familiar and competent in the preparation and use of the grab bag when off site and examinations are indicated.
- There will be frequent driving required to cover the regional geography of this role.
- High degree of competency and dexterity to carry out required practical skills such as forensic swabbing during forensic examinations, ensuring potential evidence is labelled, sealed and stored appropriately to prevent DNA degradation.
- Be signed off in accordance with FFLM guidelines and working as forensic nurse examiner within a SARC currently
- Develop own competencies and skills to meet the needs of the Service i.e. venepuncture, vaginal examinations

PHYSICAL EFFORT

- Frequent requirement for light physical effort for several short periods to carry out examination procedures e.g. manoeuvring/ positioning for procedures.
- Manual handling moving equipment and stores within the SARC environment
- Walking across military bases due to location of visitor parking against the entry of the establishment
- Driving across the geographical location to relevant military bases and locations.

MENTAL EFFORT

- Workload can require frequent concentration where the workload is predictable i.e during forensic examination and taking and recording social, sexual, medical and contraceptive history where there may be barriers to understanding,
- Skilful in dealing with challenging and sometimes demanding patients.
- Skilful management and relationship building within military establishments to facilitate access to the chain of command and therefore being able to deliver this teaching, service and message to the personnel.
- Provide professional advice and support for colleagues including outside healthcare professionals.

EMOTIONAL EFFORT

- Frequent exposure to highly distressing and highly emotional patients presenting with sensitive issues relating to sexual abuse, sexual assault, termination of pregnancy, psychosexual and gender issues, relationship problems and also dealing with mental health and learning disabilities.
- Non-judgemental approach when patients request is in conflict with own personal ethics/beliefs.
- Dealing with patients fears and distress, and empowering them
- Ability to evaluate and act upon safeguarding issues, asking for advice and guidance from safeguarding leads, with all age groups of those attending service.
- Supporting colleagues in distressing situations.

WORKING CONDITIONS

- Clinical conditions with exposure to potentially verbally aggressive behaviour.
- Frequent exposure to blood or body fluids through invasive examination and specimen collection, i.e. vaginal examination, urine tests, forensic examination etc.
- Ability to respond quickly both physically and mentally in the event of emergency.
- Promotes a healthy and safe environment for patients and staff adhering to all relevant Health and Safety legislation and reporting all incidents through the appropriate channels.
- Ability/Flexibility to be deployed to other areas as required. Will be required to travel to any site within the service as required
- Frequent use of display screen.

OTHER RESPONSIBILITIES

- Take part in regular performance appraisal.
- Undertake any training required in order to maintain competency including mandatory training, e.g. Manual Handling
- Contribute to and work within a safe working environment
- You are expected to comply with Trust Infection Control Policies and conduct him/herself at all times in such a manner as to minimise the risk of healthcare associated infection
- As an employee of the Trust, it is a contractual duty that you abide by any relevant code of professional conduct and/or practice applicable to you. A breach of this requirement may result in action being taken against you (in accordance with the Trust's disciplinary policy) up to and including dismissal.

You must also take responsibility for your workplace health and wellbeing:

- When required, gain support from Occupational Health, Human Resources or other sources.
- Familiarise yourself with the health and wellbeing support available from policies and/or Occupational Health.
- Follow the Trust's health and wellbeing vision of healthy body, healthy mind, healthy you.
- Undertake a Display Screen Equipment assessment (DES) if appropriate to role.

DISCLOSURE AND BARRING SERVICE CHECKS

This post has been identified as involving access to vulnerable adults and/or children and in line with Trust policy successful applicants will be required to undertake a Disclosure & Barring Service Disclosure Check.

GENERAL

This is a description of the job as it is now. We periodically examine employees' job descriptions and update them to ensure that they reflect the job as it is then being performed, or to incorporate any changes being proposed. This procedure is conducted by the manager in consultation with the jobholder. You will, therefore, be expected to participate fully in such discussions. We aim to reach agreement on reasonable changes, but if agreement is not possible, we reserve the right to insist on changes to your job description after consultation with you.

Everyone within the Trust has a responsibility for, and is committed to, safeguarding and promoting the welfare of vulnerable adults, children and young people and for ensuring that they are protected from harm, ensuring that the Trusts Child Protection and Safeguarding Adult policies and procedures are promoted and adhered to by all members of staff.

Northern Devon Healthcare NHS Trust and the Royal Devon and Exeter NHS Foundation Trust continue to develop our long standing partnership with a view to becoming a single integrated organisation across Eastern and Northern Devon. Working together gives us the opportunity to offer unique and varied careers across our services combining the RD&E's track record of excellence in research, teaching and links to the university with NDHT's innovation and adaptability.
