ORGANISATIONAL CHART

FREEDOM TO ACT

To work within the nursing and medical teams and contribute to decisions about patient care in line with the Trust and service policy.

Be professionally accountable for all aspects of own work, including the management of patients in your care.

To work autonomously and be able to provide expert advice to patient and families in relation to patient condition and specialist treatments and services in line with the Trust and service policy.

COMMUNICATION/RELATIONSHIP SKILLS

Provide and receive highly complex and highly sensitive information. Communicates very sensitive, complex condition related information to patients, relatives offering empathy and reassurance.

To communicate effectively between departments and Trusts to ensure patients journey is seamless.

To work in partnership with nurses and other health professionals to address people's health needs through planning and delivering interventions which are based on best practice and clinical judgement

ANALYTICAL/JUDGEMENTAL SKILLS

Complex facts or situations requiring analysis, interpretation, comparison of a range of options. Requires skills for assessing and interpreting specialist acute and other patient conditions and taking appropriate actions, this may include non-medical prescribing.

To monitor and review the effectiveness of interventions with the patient and colleagues and modify this to meet changing needs and established goals of care.

PLANNING/ORGANISATIONAL SKILLS

Plan, organise complex activities, programmes requiring formulation and adjustment

Plan patients care, managing an individual caseload of complex patients effectively and efficiently. To co-ordinate the management of outpatients presenting with symptoms of their disease or family history.

To receive direct referrals within the speciality and to provide assessment of patient's needs

To work with the CNS to develop and provide a co-ordinated specialist service to patients with the relevant specialist diagnosis and their carers and to have direct clinical involvement in complex care in both the outpatient and inpatient setting

Plan & organise day-to-day service provision

PATIENT/CLIENT CARE

To support patients in meeting their own health and wellbeing through providing expert information, advice and support

To assess patients and their complex needs and those of their families and plan, implement and evaluate appropriate programmes of care – this will include communicating highly sensitive information about diagnosis, treatment options and issues surrounding terminal illness and bereavement.

To provide emotional, psychological and practical support to the patient and their family/carer throughout their pathway and to facilitate communication between patients, families and professionals

To recognise ethical dilemmas relating to care and act as the patient/relative's advocate when required

To support the development of care pathways for patients with relevant specialist conditions

POLICY/SERVICE DEVELOPMENT

To support the development of specialist nurse led care where appropriate, in line with National guidance

To supervise/instruct unqualified members of the nursing team as appropriate

To act as an expert resource to others in developing and improving specialist knowledge and skills in clinical practice, through acting as an assessor, facilitator and teaching groups of staff as required.

To develop evidence-based standards, policies and guidelines at a local network and national level to improve the practice of own and other professions.

To evaluate clinical effectiveness within the speciality, identifying poor quality and a plan for quality improvement and produce an annual report

Act as facilitator in developing clinical practice and promoting changes in service that meet National Standards.

To participate in developing a shared vision of the service and work with the multi-disciplinary team, organisation and external agencies to achieve this

To employ effective decision-making skills to address complex issues and use effective change management skills to implement these

To use effective prioritisation, problem solving and delegation skills to manage time effectively

To establish networks with other specialists at a local, national and international level, to exchange and enhance knowledge and expertise

To maintain a peer network of support, information and learning with other nurse specialists within the organisation

FINANCIAL/PHYSICAL RESOURCES

The post holder has a personal duty of care in relation to equipment and resources.

The post holder will work within a defined day to day operational budget. Ensuring that any projects undertaken are established and managed in a financially responsible manner.

HUMAN RESOURCES

Day to day supervision of the Support Nurse

To promote a learning environment through identifying opportunities and seeking resources required for own and others learning.

To provide specialist input to post-registration courses and professional development programmes as required by the organisation.

To reflect on own practice through clinical supervision/mentorship and to act as a clinical supervisor/mentor to others

To act as a specialist resource to advice and support healthcare professionals and others involved in the delivery of care to patients, their families and carers

To support and facilitate the development of an education strategy which ensures that all those involved in the management of patients with relevant disease are able to deliver the highest standards of care

INFORMATION RESOURCES

To document all patient contacts and maintain patients records as per Trust Documentation Policy.
To be involved in the Audit Programme relevant to the service

The post holder will use a wide range of computer systems e.g. word, excel and PowerPoint to create reports, documents and presentations

RESEARCH AND DEVELOPMENT

To maintain own and others' awareness of relevant research evidence related to the speciality and work with others in applying this to practice

To identify areas of potential research relating to the speciality and to participate in national and local relevant research activities on a regular basis and to provide feedback to relevant groups.

To participate in local and national research and audit projects and service evaluation as requested in order to improve standards of patient care.

PHYSICAL SKILLS

High degree of competence and dexterity in practical nursing skills, providing a supporting role with Assessments, administering intravenous and oral medication, cannulation, and taking blood.

APPLICABLE TO MANAGERS ONLY –

Leading the team effectively and supporting their wellbeing by:

- Championing health and wellbeing.
- Encouraging and support staff engagement in delivery of the service.
- Encouraging staff to comment on development and delivery of the service.
- Ensuring during 1:1's / supervision with employees you always check how they are.

DISCLOSURE AND BARRING SERVICE CHECKS

This post has been identified as involving access to vulnerable adults and/or children and in line with Trust policy successful applicants will be required to undertake a Disclosure & Barring Service Disclosure Check.

GENERAL

This is a description of the job as it is now. We periodically examine employees' job descriptions and update them to ensure that they reflect the job as it is then being performed, or to incorporate any changes being proposed. This procedure is conducted by the manager in consultation with the jobholder. You will, therefore, be expected to participate fully in such discussions. We aim to reach agreement on reasonable changes, but if agreement is not possible, we reserve the right to insist on changes to your job description after consultation with you.

Everyone within the Trust has a responsibility for, and is committed to, safeguarding and promoting the welfare of vulnerable adults, children and young people and for ensuring that they are protected from harm, ensuring that the Trusts Child Protection and Safeguarding Adult policies and procedures are promoted and adhered to by all members of staff.

At the Royal Devon, we are committed to reducing our carbon emissions and minimising the impact of healthcare on the environment, as outlined in our Green Plan available on our website. We actively promote sustainable practices and encourage colleagues to explore and implement greener ways of working within their roles.
