JOB DETAILS	
Job Title	Assistant Practitioner
Reports to	Team Lead, Interstitial Lung Disease Clinical Nurse Specialist
Band	Band 4
Department/Directorate	Interstitial Lung Disease Service, Department of Respiratory Medicine, Medical Directorate

JOB PURPOSE
<p>Responsible for delivering effective, specialised, high quality care and carrying out specific clinical tasks, ensuring the area of work runs smoothly and efficiently</p> <p>Works under the guidance of a Registered Practitioner</p> <p>Works within the boundaries of existing competence, adhering to local and national protocols/standard operating procedures/policies</p> <p>Delivers high standards of compassionate, dignified care, managing their time, tasks and resources effectively</p> <p>Undertakes training, assessment and facilitation of peers and other staff as required</p> <p>To support Registered Practitioners in their duties and contribute to the holistic care of patients as part of a Multi-Disciplinary team</p> <p>To ensure that the environment is clean, safe, tidy and welcoming for patients and visitors</p> <p>To undertake rotational work within the department as/if required</p>

KEY RESULT AREAS/PRINCIPAL DUTIES AND RESPONSIBILITIES
<p>To act as a role model for other staff members</p> <p>Contributes to the management of a safe working environment by minimising clinical risk</p> <p>Compiles comprehensive records of care delivery as per best practice principles</p> <p>Records patient information accurately using Trust software systems</p> <p>Utilises highly complex, specialist equipment to provide treatment, where required</p> <p>As part of the multi-disciplinary team, they will provide a key role in providing care and support to individuals as specified in a written care or service plan, in a range of environments.</p>

The objectives are to :

- To understand the nature of ILD and the symptoms that present as a result
- To have an understanding of breathlessness, fatigue and nutritional support in relation to ILD;
- to support those people in the ILD service to navigate the complex health and social care system during diagnosis and ILD treatment;
- to provide general information and support about ILD and ILD services, to enable people to navigate the health and social care system and make choices. A key aspect of the role involves daily and direct (e.g. face to face and telephone) communication with patients, relatives, carers, and other health and social care professionals. The information and nature of the communication required is sensitive due to the nature of ILD. Communication in this context requires a high degree of empathy, understanding, diplomacy, honesty and integrity;
- To communicate condition related information to patients and relatives and/or sensitive information with empathy and reassurance. To be aware of barriers to understanding and identify different approaches as necessary;
- to triage incoming calls and initiate appropriate response according to protocols and individual pathways, using good communication skills, basic clinical awareness and appropriate tools and procedures, liaising as appropriate when non-routine and referring complex decisions to the team for assessment and review;
- to co-ordinate and order the necessary assessments, appointments or investigations as required;
- to support information on prescription delivery; this role may include prefilling homecare registration forms and registering patients on blueteq;
- to communicate and signpost to appropriate needs related information;
- to guide people through the use of self-assessment resources;
- to document and monitor all aspects of care co-ordination and service delivery, supporting data collection for audit, the British Thoracic Society Registries and NHSE Dashboard;

Co-ordinate care for people with non-complex care needs

- To proactively identify patient and carer needs using knowledge approved tools and procedures to ensure that people get the right support to meet their needs. The role requires use of judgement in responding to the needs of individuals. The level of judgment required relates to identifying the complexity of the situation, providing appropriate advice and escalating to the registered practitioner where appropriate;
- Co-ordinate the care for ILD patients assessed by a registered practitioner;
- See inpatients as required.
- Organise and prioritise the designated workload in relation to identified needs;
- Contribute to assessment with supervised care planning
- Implement, monitor and review the care plan with the patient and carer, in line with standard operating procedures and protocols, and modify as appropriate;
- Evaluate outcomes to care delivery with the registered practitioner;
- Make pre planned outbound telephone calls to patients to assess ongoing needs to enable a proactive prevention approach;
- Identify indicators of needs or changes in need through telephone contact and respond appropriately;

- To be responsible and accountable for specific patient assessment, such as carrying out triage, mobility assessment, functional assessments, nutritional screen, group sessions, within the core competencies for which training has been undertaken.
- To provide follow up contact and /or home visits to review intervention i.e. assessment of equipment, completing of home exercise programme
- Co-ordinate the handover with other teams (e.g. GPs and the patient's local respiratory services) to facilitate safe and effective transition of care between services in order to provide seamless support for people;
- Act as advocate and facilitator to resolve issues that may be perceived as barriers to care.

Co-ordinate education and support for people with non-complex care needs

- To co-ordinate access to the right information and educational resources to support people in making decisions about aspects of their own care, enable independence and support self-management as appropriate. Develop a partnership approach to working in order to empower the patient and carers;
- Keep up to date with relevant information and contacts with local services;
- Advise patients on individual self-care management principles and provide consistent planned aftercare to reinforce and further promote this information;
- Coordinate referral and attendance to health and wellbeing clinics and co-facilitate the clinic with a Health Care Professional. Offer appropriate information and signposting;
- Maintains accurate records of referral and attendance in MyCare;
- Encourage and support active and healthy lifestyle choices;
- Support patients and carers to understand what signs, symptoms or situations to be aware of that would indicate concern and referral back to the relevant registered practitioner;
- Educate patients and carers on how to make contact when they feel that their condition or needs have changed, including what to do out of hours;
- Planning/inviting/organising Health and Wellbeing events or other supported self-management events and patient support groups;

Enable and empower individuals to develop, sustain and improve their overall health and wellbeing. Lone working as required in accordance with Trust policy and procedures.
