Consultant in pain Management

**Job title**

[Locum Consultant in Pain Management]

**Date of vacancy**

[Immediately]

**Base**

[Heavitree Hospital, Exeter]

# A Warm Welcome

Hi, I'm Vanessa Purday, Chief Medical Officer at the Royal Devon University Healthcare NHS Foundation Trust. Thank you for your interest in joining us. Having recently returned to the Royal Devon, where I began my consultant career, I can confidently say this is a Trust shaped by outstanding people, a positive culture, and a clear vision for the future.

Vanessa Purday

It's an exciting time to be part of our journey. We have ambitious plans to meet the needs of our communities through a clinically led, digital-first approach. Innovation and research sit at the heart of this—from being the first Trust in the country to implement EPIC in the community to pioneering robotic surgery, our record speaks for itself.

The Royal Devon is a special place to work. As one of the largest healthcare Trusts in the country, we combine scale with a family-like feel, fostering both creativity and personal care. Our agility and forward-thinking approach ensure we can adapt to the evolving NHS landscape, deliver the best care for our patients and provide excellent career progression for colleagues.

We are especially proud of our [Pain Management] department, nationally recognised for its multidisciplinary expertise and research. We are committed to building on this success and are seeking exceptional clinicians to join our dynamic and inclusive team here in Devon.

Good luck with your application and I look forward to meeting you soon.

*We welcome enquiries for further information and strongly encourage informal visits either in person or virtually so that you can get a feel for what it's like to work with us. A list of contacts is detailed in the final section of this pack.*

## Introduction

The Royal Devon University Healthcare NHS Foundation Trust is seeking to appoint a [Consultant in Pain Medicine to join the department of Pain and Critical Care, East services, based at Heavitree Hospital and The Royal Devon and Exeter Hospital]

[These roles form part of a wider integrated department that includes our Northern services based in Barnstaple, and which jointly provide telephone or video consultations for patients living across Northern, Eastern and Mid Devon.

Our combined Pain and Anaesthetics department are friendly, successful and ambitious. [The Royal Devon is a Trust which encourages and supports innovation, diversity, digital development and research.

**“Inclusion is one of our core values, and we take pride in having a diverse workforce and a culture that respects everybody.”**

## Highlights of the role

**Research and innovation.** [We do not have any current research projects. There is a wealth of opportunity for research in chronic and acute pain. Research active departments deliver better clinical outcomes for patients. We have a large programme of investigator-led and commercial research studies which have been internationally recognised for their programme of multi-site, award-winning research. Research interests are strongly encouraged and supported. We have a multimillion-pound research facility, dedicated research staff and collaborative links with researchers from across the University of Exeter. Funded time for the development of research proposals is available for interested consultants.]

**Training and development.** [The pain service and the anaesthetic department are both actively involved in the training of postgraduate doctors in the speciality of pain medicine and anaesthesia. There is provision for higher training fellowship posts in pain medicine within the Exeter pain service. Both departments are actively involved in the Exeter Medical school teaching undergraduates]

**Service development.** The Royal Devon's core services support a population of more than 615,000 people across more than 2,000 square miles across Devon. The scale of operation brings opportunities to establish and develop innovative new services to better meet the needs of our patients such as harnessing technology to deliver remote patient consultations and disease monitoring.

**Teaching.** The Royal Devon enjoys close ties with the University of Exeter Medical School. We offer funded time for teaching of medical students and junior

doctors. We are planning a regular programme of evening educational meetings, which will bring the Eastern and Northern teams together providing opportunities for your CPD [ ]

**Career progression.** The size and structure of our team create opportunities for rapid progression to areas of increased responsibility.

**Electronic patient record.** We went live with the Epic electronic patient record system across our Eastern services in 2020 and our Northern services in 2022. We are optimising the way we use the system, but we are already seeing huge benefits for our patients. Epic is transforming the way we deliver care across our Trust, allowing teams to share the caseload across Devon and provide care to patients remotely.

**Location and relocation.** We are fortunate to be based in the beautiful South West of England, with the cultural city of Exeter, the rolling moors of Exmoor and Dartmoor, and a multitude of stunning beaches on our doorsteps. We have low rates of crime and excellent education - schools and further education colleges are good or outstanding, and Exeter boasts a top Russell group university. We can offer you accommodation to support a visit and a relocation package should you choose to come to Devon.

A more comprehensive explanation of all of these elements can be found within this job pack, but if you have any questions then please do get in touch or arrange a visit to come and see us. Contact details are at the back of this pack. [ ]

# About Royal Devon University Healthcare NHS Foundation Trust

Our core services support a population of over 615,000 people and cover more than 2,000 square miles across Devon. This makes us one of the largest providers of integrated health care in the UK, and the biggest employer in Devon, with more than 15,000 staff.

We have two acute hospitals, 20 community locations, outpatient clinics and community teams who care for people within their own homes. We also provide primary care and a range of specialist services which extends our reach throughout the South West Peninsula as far as Cornwall and the Isles of Scilly.

We have a strategy to embrace change, innovation and technology in our ambitions to be a digitally-enabled, clinically-led teaching organisation. We are developing new ways of working and focus our multi-million annual investment programme into new infrastructure, equipment and facilities to ensure we deliver the highest quality care and outcomes. There has never been a better time to join us.

The Royal Devon is committed to supporting the personal and professional development of our consultant staff and in turn improving the care offered to our patients. This might include developing or introducing innovative care models and bringing these to rural patients, teaching the doctors of tomorrow or undertaking award-winning clinical research. Examples include our inflammatory bowel disease research team who were recognised with the national team award for their contribution to the NIHR portfolio, and our recent launch of a world-first national genetic testing service from our labs, which can rapidly test DNA samples of babies and children, so we can provide life-saving treatment.

You'll find more information about the role and the Trust in this pack. Further information is also available on our website [www.royaldevon.nhs.uk](http://www.royaldevon.nhs.uk).

## About the Trust and service structure

The Royal Devon's Board of Directors is chaired by Dame Shan Morgan and is comprised of both executive and non-executive directors. The executive directors manage the day to day operational and financial performance of the Trust.

These consist of the chief executive officer (Sam Higginson), deputy chief executive officer (Chris Tidman), chief medical officer (Vanessa Purday), chief nursing officer (Carolyn Mills), interim chief operating officer (Phil Luke), chief finance officer (Angela Hibbard), and chief people officer (Hannah Foster).

Our [Pain] services are based at the Royal Devon and Exeter Hospital (Wonford) (RD&E) and sit within the critical care division.

Our Trust wide operational service structure is divided into five care groups, each with a medical director, a care group director and a director of patient care. For [Surgery care group], the Medical Director is Gareth Moncaster, the Care Group Director is [Nicola Du'Gay]. All permanent medical staff are members of the Medical Staff Committee which has an elected Chairperson who represents the group at the Trust Management Committee.

**More information about our structure and services can be found on the Trust website at [www.royaldevon.nhs.uk](http://www.royaldevon.nhs.uk)**

## The Department of Pain and Anaesthesia

[We are a cohesive pain service consisting of 4 Pain Medicine consultants with Anaesthetic interests. The consultants offer both acute and chronic pain expertise along with specialist clinics including CRPS, chronic pelvic pain, complex knee pain and neuromodulation. We have 7 (3.5 FTE) Pain Nurses who cover the inpatient acute pain referrals, medication reduction clinics, lidocaine infusion lists and chronic pain outpatient clinics.

We currently have one ACP working alongside the consultants, providing assessment and management of chronic low back pain and the implementation of the national back pain pathway. We are expanding to 2 ACPs in the near future.

Working alongside us is the pain management rehabilitation team consisting of specialist physiotherapists, clinical psychologists and specialist occupational therapists. This service offers pain management programmes, pain education, groups and 1:1 therapy.

The team is invested in audit and education.]

There are currently approx. 40 anaesthesia/ICU trainees who rotate through the hospitals of the South West School of Anaesthesia (Exeter, Plymouth, Torbay, Taunton, Truro and Barnstaple).

On Call: The General Anaesthesia on call rota is 1:28 with split weekends and weekend resident day time

shifts. Senior consultants are given the option to come off the on call rota when the opportunity arises and deliver the weekend and Bank Holiday trauma rota.

]

## Consultant Medical staff

Dr Kathryn Davies - pain medicine

Dr Mark Jackson - pain and anaesthesia

Dr Graham Simpson - pain and anaesthesia

Dr Harriet Daykin - pain and anaesthesia

There are currently 57 consultants employed within the Anaesthetics cluster, including 1 full time intensivist.

Dr R Appelboam (ICU)

Dr Z Jefferies

Dr L Barker

Dr D Johnston

Dr L Badek (ICU/Anaesthetics)

Dr C Leighton (ICU/Anaesthetics)

Dr N Batchelor

Dr J Lloyd

Dr R Black

Dr S Marshall

Dr R Broomby

Dr A Martin

Dr M Chandler

Dr F Martin

Dr J Cockcroft

Dr T Martin

Dr T Clark

Dr C Matthews

Dr L Cossey

Dr E McIlroy

Dr M Daugherty

Dr B McCormick

Dr M Davidson (ICU / Anaesthetics)

Dr K Meikle

Dr K Davies

Dr A Melia

Dr C Day (ICU / Anaesthetics)

Dr A Mills

Dr P Dix

Dr Q Milner

Dr S Edie

Dr D Mumby

Dr P Ford

Dr N Pathmanathan (ICU / Anaesthetics)

Dr J Garwood

Dr M Pauling

Dr C Gibson (ICU / Anaesthetics)

Dr J Pittman (ICU/Anaesthetics)

Dr C Gillett

Dr R Price

Dr H Gilfillan

Dr H Pugh

Dr E Hammond

Dr N Ross

Dr E Hartsilver

Dr P Harris

Dr G Simpson

Dr K Haynes

Dr J Simpson

Dr A Hellewell

Dr M Spiro

Dr L Helliwell

Dr E Howells (ICU/Anaesthetics)

Dr P Thomas

Dr M Jackson

Dr C Todd

In addition, there are eight Doctors working as

Associate Specialists, Staff Grades or Speciality

Doctors:

Dr S Baldwin

Dr M Dash

Dr T Deen

Dr M Hawkins

Dr L Piskac

Dr M Ridgeway

Dr K Smith

Dr P Taylor

] |

[

## Professions allied to medicine

Consultants at the Trust have access to an amazing team of specialised support

## Departmental meetings

[[Pain meetings:

A monthly MDT with the pain consultants, pain nurses, physiotherapists, clinical psychologists and occupational therapists

Quarterly governance meeting

Monthly Spinal Cord stimulator MDT - consultants, nurses and clinical psychologists

Twice weekly acute pain ward rounds of hospital inpatients, shared equally amongst the pain consultants

Weekly MDT with spinal surgeons, ESPs in spinal service shared equally amongst the pain consultants

].

## Administration and secretarial support

You will undertake administrative work associated with your clinical and other professional work. Adequate time and facilities for clinical administration, including appropriate office space, secretarial support and access to a personal computer, software and internet access, will be available. ]

## Supporting professional activities

You will participate in a variety of professional activities (SPA) to support your personal clinical practice and the overall work of the department and Trust. All full-time consultants receive 1.5 core SPA sessions for generic non-clinical work. This includes, but is not limited to:

- Appraisals, job planning and revalidation
- Personal and professional development, including service development
- Professional administration, including related correspondence
- Clinical supervision of junior staff and other educational activities
- Governance and quality improvement activities
- Departmental, divisional and other clinical or managerial meetings

Further details are published in the job planning policy.

## Continuing professional development

The Trust supports the requirements for continuing professional development (CPD) as laid down by the [Royal College of Anaesthetics and the Faculty of Pain] and is committed to providing time and financial support for these activities.

## Revalidation

The Trust has the required arrangements in place, as laid down by the [ ], to ensure that all doctors have an annual appraisal with a trained appraiser, and supports doctors going through the revalidation process. [

## Research

[Investigator-led and clinical trial research has a prominent place in the Royal Devon. Patients are given the opportunity to participate in a wide number of studies.

The University of Exeter Medical School has an excellent research reputation from basic biomedical research through to patient-centred research. The group is supported by the University of Exeter and NIHR biomedical research centre and currently provides research training to three PhD students and two visiting fellows. ]

The Research, Innovation, Learning and Development (RILD) building on the RD&E Wonford site is a £27.5m development which consists of the Wellcome Wolfson Centre for Medical Research, the National Institute for Health Research (NIHR), Exeter Clinical Research Facility and a new Post Graduate Education Centre. The RILD is now home to a number of the Medical School's laboratory-based research teams, comprising both clinical research areas and class two and three medical research laboratories, complete with offices, meeting rooms and write-up areas.

Active assistance in the planning and design of research projects is available from the Research and Development Support Unit based on the RD&E Wonford hospital site. The Trust has an active academic strategy to facilitate research, development and teaching.

Candidates who wish to pursue a research interest alongside their clinical work will be strongly encouraged by the department and are eligible for support from the University of Exeter Medical School.

## University of Exeter Medical School

The University of Exeter is high-ranking in both UK and global standings and is a member of the Russell Group of leading research-based institutions. It has ambitious plans for the future and has invested heavily in its facilities in recent years.

The Medical School's cutting-edge research is driven by important clinical questions. It focuses on translational and applied research in areas of greatest health burden and greatest opportunity for scientific advance, principally: diabetes, cardiovascular risk and ageing; neurological disorders and mental health; environment and human health; and health services research. It spans basic through clinical science to clinical trials and health policy.

UEMS delivers two highly-regarded and innovative undergraduate degrees: the BSc in Medical Sciences and Bachelor of Medicine, Bachelor of Surgery (BMBS). In addition, the Medical School offers a range of postgraduate programmes and courses. The curriculum reflects today's evolving models of care and patient experience in acute, primary and community care settings.

Building on the excellent educational reputation of the Peninsula College of Medicine and Dentistry and using problem-based learning in small groups, the BMBS programme reflects the belief that doctors need to adopt a socially accountable approach to their work and to understand the human and societal impact of disease as well as the community-wide context of contemporary healthcare provision

UEMS graduates will be both capable and confident, whether they are clinicians, managers, educators or researchers and will be committed to life-long scholarship. Years one and two of the BMBS programme are based at the St Luke's Campus in Exeter and lay the scientific foundations for the future years of the course. There is clinical contact from year one and students begin acquisition of a range of transferable skills, learning science within a clinical context.

UEMS students spend years three and four of their programme at the Royal Devon and Exeter (Wonford) Hospital and North Devon District Hospital, as well as at the Royal Cornwall Hospital in Truro and in their surrounding general practices and community health environments.

The Pain service delivers regular tutorials to year 3 and 4 medical students throughout the academic year

All consultants in the [Pain and Anaesthetic] Departments are all involved in teaching students. The postholder is encouraged to develop interests in education and training and there are many opportunities to develop these interests both locally and more widely.

## Outline job plan

A provisional outline job plan is included but is subject to modification. The individual job plan and detailed timetable will be discussed with the successful candidate. Special interests will be accommodated where they are compatible with service requirements.

It is expected that the initial job plan will be agreed within three months of the start date and will be reviewed annually or earlier, if necessary.

## On-call rota

The postholder will participate in the cross-site interventional on-call rota at a 1 in 6 frequency. They will not be expected to take part in the general radiology on-call rota. Currently, the on-call commitment attracts a 3% salary supplement.

## Provisional timetable

[Mon am WR [1in 4 weeks] Mon pm MDT [1in 2weeks]

Tuesday am Clinics [ flexible] Tuesday pm clinics [ flexible]

Wednesday am Clinics [ flexible] Tuesday pm clinics [ flexible]

Friday am Injection list (1 in 4) Friday pm injection list [1in 4]

Friday am WR [1in 4 weeks] Friday pm spinal MDT [1in 4weeks]

]

<b>Requirement</b>	<b>Essential attributes</b>	<b>Desirable attributes</b>
Motivation and management of personal practice	<p>Punctual and reliable.</p> <p>Good personal organizational and prioritization skills, achieve deadlines.</p> <p>Takes responsibility for personal practice and is able to cope well with stressful situations.</p> <p>Commitment to continuing medical education and professional development.</p> <p>Flexible and adaptable attitude.</p>	<p>Demonstrates initiative in personal practice.</p> <p>Willingness to undertake additional professional responsibilities at local level.</p>
Commitment to post	<p>Demonstrates enthusiasm for Devon as a place to live and work.</p>	

## Main conditions of service

Appointment is to the NHS Consultant Contract (2003) under the current Terms and Conditions of Service for Hospital Medical and Dental Staff (England and Wales) and the Conditions of Service determined by the General Whitley Council for the Health Services (Great Britain). These are nationally agreed and may be amended or modified from time to time by either national agreement or local negotiation with the BMA local negotiating committee.

The employer is the Royal Devon University Healthcare NHS Foundation Trust. The appointee will be professionally accountable to the Chief Medical Officer and managerially accountable to the Chief Executive Officer.

The postholder is required to have full registration with a licence to practice with the General Medical Council and to ensure that such registration is maintained for the duration of the appointment.

## Salary scale

This is as described in the Medical and Dental Terms and Conditions, in line with the Consultant Contract (2003). The current full-time salary scale ranges from £109,725 to £145,478 with eight thresholds. The on-call supplement attracts a supplement of 3% of basic salary.

## Length of contract

This is a fixed term contract for [12 months].

## Leave

Annual leave entitlement is as described in Schedule 18 of the Terms and Conditions of Service: Consultant (England) 2003. Further details are available in the Senior Medical Staff Leave Policy.

Locum cover for leave will not normally be provided. It is expected that consultants within the department will coordinate leave to ensure that an appropriate level of service (emergency, urgent and routine) is maintained.

## Domicile

Consultants are expected to reside within a reasonable distance of the main acute hospital to which they are affiliated, normally within 10 miles or 30 minutes. Exceptions must be agreed with the medical director or chief executive.

## Duty to be contactable.

Subject to the provisions in Schedule 8, consultants must ensure that there are clear and effective arrangements so that the employing organisation can contact a post holder immediately at any time during a period when a post holder is on-call.

## Indemnity

The post-holder is not contractually obliged to subscribe to a professional defence organisation but should ensure that they have adequate defence cover for non-NHS work.

## Mentoring

New consultants will have access to mentoring and are encouraged to take advantage of this facility. This will be arranged following discussion and mutual agreement between the individual and the medical director.

## Professional performance

The Trust expects all doctors to work within the guidelines of the GMC Guide to Good Medical Practice. You will work with clinical and managerial colleagues to deliver high quality clinical care, within the management structure of the Trust and are expected to follow Trust policies and procedures, both statutory and local, including participation in the WHO surgical checklist.

You will be expected to take part in personal clinical audit, training, quality assessment and other professional activities, including continuing medical education, annual appraisal, job planning and revalidation. It is expected that you will participate in multi-source feedback from both colleagues and patients. You will undertake administrative work associated with management of your clinical and professional practice.

You will be responsible for leadership of junior doctors within the specialty as agreed in your job plan and will be accountable for the effective and efficient use of any resources under your control.

You will also participate in activities that contribute to the performance of the department and the Trust as a whole, including clinical and academic meetings, service development and educational activities. Service developments that require additional resources must have prior agreement from the Trust.

## Reporting concerns

The Trust is committed to providing safe and effective care for patients. There is an agreed procedure that enables staff to report “quickly and confidentially, concerns about the conduct, performance or health of medical colleagues”, as recommended by the chief medical officer (December 1996).

All medical staff practising in the Trust must ensure that they are familiar with the procedure and apply it if necessary.

## Serious untoward incidents

It is expected that you will report all risks, incidents and near misses in accordance with the Trust governance structure. You will be required, on occasion, to lead or assist with investigation of incidents and implementation of risk-reducing measures to safeguard patients, visitors and staff. You must comply with the Duty of Candour legislation.

## Research and audit

Audit is supported by the clinical audit and effectiveness department and we encourage all levels of staff to undertake quality improvement projects. Research within the Trust is managed in accordance with the requirements of the Research Governance Framework. You must observe all reporting requirement systems and duties of action put in place by the Trust to deliver research governance.

## Safeguarding children and vulnerable adults

The Trust is committed to safeguarding children and vulnerable adults and you will be required to act at all times to protect patients. The appointees may have substantial access to children under the provisions of Joint Circular No HC (88) 9 HOC 8.88 WHC (88) 10. Please be advised that, in the event that your appointment is recommended, you will be asked to complete a form disclosing any convictions, bind-over orders or cautions and to give permission in writing for a DBS check to be carried out. Refusal to do so could prevent further consideration of the application.

## Rehabilitation of offenders

Attention is drawn to the provisions of the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 as amended by the Rehabilitation of Offenders Act 1974 (Exceptions) (Amendment) Order 1986, which allow convictions that are spent to be disclosed for this purpose by the police and to be taken into account in deciding whether to engage an applicant.

This post is not protected by the Rehabilitation of Offenders Act, 1974. You must disclose all information about all convictions (if any) in a court of law, no matter when they occurred. This information will be treated in the strictest confidence.

## Health and safety

Employees are required to take reasonable care to avoid injury or accident while carrying out their duties, in compliance with the Health and Safety at Work Act 1974, various statutory regulations, Trust and departmental guidelines, policies and procedures. This will be supported by provision of appropriate training and specialist advice.

## Infection prevention and control

The Trust is committed to reducing hospital-acquired infections. All staff are expected to ensure that infection risks are minimised in line with national and Trust policies and best practice. They are supported in this by the infection prevention and control team.

## Our approach to inclusion and diversity

Inclusion is fundamental to our approach to organisational development, culture, service improvement, and public and patient engagement.

It is one of our core values and we have an inclusion lead to provide strategic oversight to the inclusion agenda. Our inclusion steering group is chaired by our interim CEO, Sam Higginson, and reports its progress to the Board of Directors.

Our aim is to create a positive sense of belonging for everyone, regardless of their background or identity, and to value visible and invisible differences, so everybody is respected and valued, and everyone feels comfortable bringing their whole selves to work and able to reach their full potential.

We have staff inclusion champions who provide information to colleagues and promote inclusion opportunities. We also have a range of networks which colleagues can join, including:

- Disability network
- LGBTQ+ network
- Ethnic minority network
- Neurodiversity Network

Once colleagues join us, we can share with them more information, including how to join any of these groups.

## Living in Devon

Devon offers a quality of life few other English counties can match. Where else will you find such a unique landscape that encompasses over 450 miles of dramatic coastline, rugged moorland and gently winding rivers?

Interspersed with vibrant market towns, chocolate-box villages and sleepy hamlets, it is easy to see why we are consistently voted as one of the top places to live in the country.

Devon's outdoor lifestyle is its biggest draw. This natural playground is unsurpassed with over a third of the county designated as Areas of Outstanding Natural Beauty. You'll have over 5,000 km of footpaths and 250km of off-road cycle paths to explore, not to mention endless opportunities to surf along the vast stretch of Atlantic coastline or paddleboard across tidal estuaries.

There are good transport links to the rest of Devon, including the M5 and regular trains to Exeter with its art galleries, museum and theatres. Your taste buds will find plenty to savour here too - Devon is rightly proud of the farmers and producers who make the South West one of the best regions in the UK to enjoy locally produced food and drink. Northern Devon also benefits from an excellent range of community, private schools and colleges for further education.

Whether you fancy surfing or fishing, cycling or climbing, fine dining or hearty pub fare, the county really does have it all.

**“Devon didn’t just top our rankings, it blew away the competition. Simply put, it has everything.”**

The Telegraph:  
England's 48 counties  
ranked from best to worst

## Vibrant cities

A thriving, forward-looking city, Exeter is home to the world-leading Met Office, boasts the UK's first leisure centre built to ultra-energy-efficient Passivhaus standard and has one of the top 20 universities in the country.

At the very heart of the city is Exeter Cathedral, an architectural gem surrounded by cobbled streets and beautiful old buildings, many of them shops and eateries. In the compact city centre, you can stroll alongside parts of the ancient Roman wall, visit the remains of Rougemont Castle or explore the depths of Exeter's historic Underground Passages. Exeter Phoenix Arts Centre and the Royal Albert Memorial Museum (RAMM), add to the cultural mix, plus you'll have performance venues such as the Northcott Theatre, the Barnfield Theatre and Corn Exchange close to the city centre.

The main shopping area provides a wide range of leading High Street brands alongside an eclectic mix of independent shops, many to be found in the narrow thoroughfares off Cathedral Close and the High Street. Nearby Fore Street is a haven for all things vintage and retro. Exeter also has a historic quayside, a great spot to sit and watch the world go by at one of the many cafes and restaurants with al fresco dining.

## Friendly market towns

You'll find an array of historic towns across North Devon and Torridge such as Okehampton, famed for its easy access to stunning Dartmoor. Heading towards North Devon, you'll also have delights such as the charming harbour town of Ilfracombe and the riverside port of Bideford.

More information about the area and help with relocating can be found at [www.rovaldevon.nhs.uk/careers](http://www.rovaldevon.nhs.uk/careers)

## Great for families

Outstanding Ofsted-rated primary schools, high-ranking secondaries and proximity to two leading universities are some of the biggest draws to Devon, making this a desired destination for families. Whether you have young children or teenagers in tow, the sheer quality of education and extra-curricular activities available are guaranteed to impress.

## Living and travelling

Housing wise, housing stock is diverse, with everything from thatched moorland cottages to Georgian townhouses and contemporary builds. Time and distance are different here, too. Many residents in this – the fourth largest county in the UK – are happy to travel up to an hour or more for work. This means there's a great deal of choice when it comes to finding somewhere to live.

Transport links are also good. The county has more than 8,000 miles of road – the largest road network anywhere in the country, although (it has to be said) many are narrow Devon lanes.

From Exeter's main station, Exeter St David's, there are fast and frequent rail services to Bristol (one hour), London (around two hours to Paddington) and Birmingham (under three hours to Birmingham New Street). Exeter itself has an impressive rail network with no fewer than nine stations serving different parts of the city. There are a number of branch lines providing services to Mid and North Devon, Dartmoor and the Exe Estuary. Exeter International Airport provides flights to numerous destinations throughout the UK, Europe and even North America.

## Support with relocation

Our People Teams will help you get settled, providing financial relocation support, help with somewhere to live, registration for children at one of the excellent local schools and support for partners seeking employment.
