

JOB DESCRIPTION

JOB DETAILS	
Job Title	Lead Speech & Language Therapist: Upper Airways
Reports to	Lead Speech & Language Therapist: ENT
Band	7
Department/Directorate	Therapies / Clinical Specialist Services

JOB PURPOSE

The post holder will be the Lead Speech and Language Therapist (SLT) for patients with upper airway disorders due to severe asthma. The post holder will work as part of the Severe Asthma multidisciplinary team (MDT). As this is a new post, this will include developing the Upper Airway SLT role within the Severe Asthma service, alongside Respiratory Consultants, Clinical Nurse Specialists, Physiotherapists, and ENT.

The post holder is responsible for providing highly specialist assessment, differential diagnosis and therapeutic intervention for people with a range of upper airway, communication and swallowing disorders arising from severe asthma. This includes chronic cough, complex breathlessness, and inducible laryngeal obstruction (ILO). They will have a specialist advisory role for the Trust in this specialty area, giving service-wide second and expert opinions, training others and supporting students. Some aspects of care may require working outside of the normal scope of practice of SLT e.g. completing clinical observations, using respiratory assessment tools etc.

As this is a newly funded post, there will be a focus on service development and monitoring including collection and analysis of data and outcome measures. This will be vital to ensuring the success of the post and the development of the service. The post holder will also look to develop the role of nasendoscopy within the severe asthma service, with support from the wider SLT team.

The post holder will report to the Lead Speech & Language Therapist for ENT and work closely with the Severe Asthma MDT. The post-holder is responsible for their own workload within the designated clinical area on a day-to-day basis. Caseloads will be flexible and at times of Trust critical incident may involve the provision of service to other areas of the Trust if caseload pressures demand.

KEY RESULT AREAS/PRINCIPAL DUTIES AND RESPONSIBILITIES

Caseload Management:

This post requires caseload management which will vary according to location and complexity. There will be a responsibility to provide advice to patients with highly complex and specialist needs as well as carers and other disciplines.

Provide support to other registered and non-registered staff regarding effective caseload management and monitoring strategies.

Provide direct support and guidance to registered and non-registered staff with potentially challenging cases/situations, particularly where reassessment may be required.

The post holder will pass on and also encourage others to share their skills/knowledge within both formal and informal environments.

To have responsibility for the development of therapy staff, support staff and students.

Budget:

To be responsible for the use of resources in the most efficient and effective way.
